Omar Nair

omar.nair@example.com | +91 9811945329 | Mumbai

SUMMARY

6+ years of experience. Machine learning engineer who takes models from research to production, with a focus on scalable training pipelines, model serving and monitoring.

TECHNICAL SKILLS

Core: PyTorch, Airflow, Python, MLOps, Feature Engineering
Tools & Platforms: Amazon Web Services, k8s, SQL, Git
Also familiar with: ML, Deep Learning, Docker, sklearn

PROFESSIONAL EXPERIENCE

Nimbus Software — Senior Machine Learning Engineer (10/2024 – Present)

- Built and deployed ML ranking models in Python and PyTorch serving 54M predictions per day, lifting click-through rate by 29%.
- Implemented model monitoring (drift, data quality) and alerting, preventing 21 production incidents.
- Containerised inference services with Docker and k8s, reducing p95 latency by 34%.

Tech: Python, PyTorch, ML, Scikit-learn, Feature Engineering

Aurora Games — Machine Learning Engineer (05/2020 – 09/2024)

- Optimised TensorFlow and PyTorch training jobs with mixed precision and distributed training, saving 12% GPU cost.
- Containerised inference services with Docker and k8s, reducing p95 latency by 49%.
- Implemented model monitoring (drift, data quality) and alerting, preventing 24 production incidents.

Tech: Python, PyTorch, ML, sklearn, Airflow

ACADEMIC BACKGROUND

- MS in Computer Science — University of Toronto (2017 – 2019)
- BS in Computer Science — BITS Pilani (2013 – 2017)

LICENSES & CERTIFICATIONS

- TensorFlow Developer Certificate
- AWS Certified Machine Learning - Specialty
