Emily Sharma

emily.sharma@example.com | +91 9895005421 | Toronto

SUMMARY

5+ years of experience. Machine learning engineer who takes models from research to production, with a focus on scalable training pipelines, model serving and monitoring.

SKILLS

Core: TensorFlow, PyTorch, SQL, Scikit-learn
Tools & Platforms: AWS, Docker, Python
Also familiar with: Airflow, MLOps, Machine Learning

PROFESSIONAL EXPERIENCE

Machine Learning Engineer | Ironclad Security | Jan 2026 – Present

- Trained Deep Learning models for image classification using PyTorch; improved F1 by 46% over the previous baseline.
- Containerised inference services with Docker and Kubernetes, reducing p95 latency by 57%.
- Optimised TensorFlow and PyTorch training jobs with mixed precision and distributed training, saving 37% GPU cost.

Tech: Python, PyTorch, Machine Learning, FastAPI, Kubernetes

Machine Learning Engineer | Meridian Bank | Nov 2021 – Dec 2025

- Implemented model monitoring (drift, data quality) and alerting, preventing 23 production incidents.
- Containerised inference services with Docker and Kubernetes, reducing p95 latency by 44%.

Tech: Python, PyTorch, Machine Learning, Spark, Computer Vision

SELECTED PROJECTS

- Real-time fraud scoring service: PyTorch model behind a FastAPI endpoint, deployed with Docker on AWS.
- Open-source model registry helper for MLflow used by 15 teams.

EDUCATION

- BS in Computer Science — Georgia Tech (2016 – 2020)

LICENSES & CERTIFICATIONS

- TensorFlow Developer Certificate
- AWS Certified Machine Learning - Specialty
