SUMMARY

7+ years of experience. Security engineer focused on application security, threat modeling and incident response.

SKILLS

Core: OWASP, Penetration Testing, Incident Response
Tools & Platforms: AWS, Bash, Threat Modeling
Also familiar with: SIEM, IAM, Python

WORK EXPERIENCE

Redwood Insurance Tech — Senior Security Engineer (12/2025 – Present)
- Tuned SIEM detections and led Incident Response for 37 security events.
- Led Threat Modeling workshops and Vulnerability Assessment cycles.
- Performed Penetration Testing on web applications following OWASP guidance; remediated 35 critical findings.

Tech: Penetration Testing, OWASP, Threat Modeling, IAM, Vulnerability Assessment

Helios Cloud — Security Engineer (02/2020 – 11/2025)
- Led Threat Modeling workshops and Vulnerability Assessment cycles.
- Performed Penetration Testing on web applications following OWASP guidance; remediated 10 critical findings.
- Tuned SIEM detections and led Incident Response for 27 security events.

Tech: Penetration Testing, OWASP, Threat Modeling, Linux, Network Security

PROJECTS

- Internal vulnerability dashboard in Python.

EDUCATION

- BS in Computer Science — TU Munich (2016 – 2020)

CERTIFICATIONS

- CEH
- CompTIA Security+
