Priya Mehta

priya.mehta@example.com | +91 9813258750 | Austin, TX

PROFESSIONAL SUMMARY

10+ years of experience. Data scientist who turns messy business data into predictive models and experiments that drive decisions.

CORE COMPETENCIES

Core: Recommender Systems, Data Visualization, sklearn, ML, Tableau
Tools & Platforms: SQL, Pandas, A/B Testing, NumPy
Also familiar with: Statistics, PyTorch, Git, Python

EXPERIENCE

Senior Data Scientist | Nimbus Software | Sep 2024 – Present

- Developed demand forecasting with Time Series models, improving forecast accuracy by 20%.
- Created a Recommender Systems prototype using ML that increased basket size by 35%.
- Built churn prediction models with XGBoost and Scikit-learn in Python, reducing churn by 35%.

Tech: Python, SQL, Statistics, Spark, Data Visualization

Data Scientist | Skyline Travel | May 2016 – Aug 2024

- Presented findings to leadership through Tableau dashboards and Data Visualization stories.
- Created a Recommender Systems prototype using ML that increased basket size by 53%.
- Partnered with product managers to define KPIs and run Statistics-driven hypothesis testing.

Tech: Python, SQL, Statistics, Git, Data Visualization

PROJECTS

- Customer lifetime value model with XGBoost and Pandas; deployed as a weekly batch job.

ACADEMIC BACKGROUND

- Bachelor of Science in Statistics — University of Edinburgh (2012 – 2016)
