Yuki Lewis

yuki.lewis@example.com | +91 9833659145 | Delhi NCR

PROFILE

5+ years of experience. Data scientist who turns messy business data into predictive models and experiments that drive decisions.

CORE COMPETENCIES

Core: Tableau, XGBoost, Statistics
Tools & Platforms: Pandas, Python, Machine Learning
Also familiar with: A/B Testing, SQL, Git

EXPERIENCE

Northwind Analytics — Data Scientist (11/2023 – Present)
- Developed demand forecasting with Time Series models, improving forecast accuracy by 39%.
- Wrote complex SQL and Pandas pipelines to create analytical datasets from 44TB of event data.
- Built churn prediction models with XGBoost and Scikit-learn in Python, reducing churn by 25%.

Tech: Python, SQL, Statistics, Data Visualization, Scikit-learn

Orbital Payments — Data Scientist (02/2022 – 10/2023)
- Created a Recommender Systems prototype using Machine Learning that increased basket size by 52%.
- Developed demand forecasting with Time Series models, improving forecast accuracy by 25%.
- Presented findings to leadership through Tableau dashboards and Data Visualization stories.

Tech: Python, SQL, Statistics, Tableau, Spark

SELECTED PROJECTS

- Experimentation toolkit in Python for sequential A/B Testing.

ACADEMIC BACKGROUND

- Master of Science in Economics — IIT Delhi (2020 – 2022)
- Bachelor of Science in Economics — Jadavpur University (2016 – 2020)

LICENSES & CERTIFICATIONS

- Google Data Analytics Certificate
- IBM Data Science Professional Certificate
